

## **REMARKS**

Reconsideration of the above identified patent application is hereby respectfully requested in view of the foregoing amendments and following remarks.

The response filed on November 15<sup>th</sup>, 2005 was objected to by the Examiner because a clean copy of the specification was not supplied and because of lack of a statement indicating that no new matter has been added.

A clean copy of the previously amended specification is included above.

The changes made to the specification correct errors of grammar (i.e., the consistent use of the terms polish vs. wax) and generally describe two previously recited products. Therefore, no new matter has been added.

Accordingly, the objections to the disclosure are believed to be overcome. Reconsideration is respectfully requested.

Respectfully submitted,
